

Department of **Haematology**

Our Doctor

Haematology

Dr. R.M. Subbiah

MBBS, MD, DM

Consultant Haemato Oncologist
Kauvery Hospital, Trichy - Cantonment

Key Selling Point:

- Comprehensive care for blood disorders including leukemia, lymphoma, and multiple myeloma
- Advanced treatment options for aplastic anemia, myelodysplastic syndrome (MDSC), and myeloproliferative disorders (MPN)
- Specialized management of hemophilia and immune thrombocytopenia (ITP)
- Expert diagnosis and personalized therapy plans for leukopenias
- Cutting-edge treatments including chemotherapy, immunotherapy, and stem cell transplantation
- Patient-centered approach with ongoing support and post-treatment care

Department of **Vascular Department**

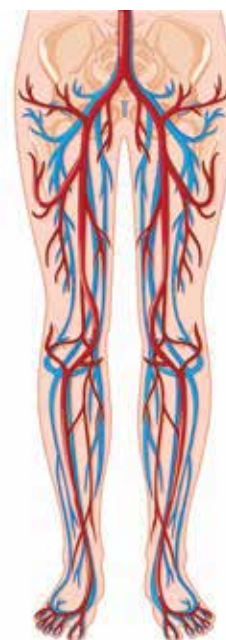

Vascular Surgery

Key Selling Point:

- Expert care for Varicose Veins, Deep Vein Thrombosis, and Venous Malformations
- Advanced treatment for Acute Limb and Mesenteric Ischemia
- Specialized AV Access surgeries including Radio Cephalic and Brachiocephalic fistulas
- Aneurysm surgeries including EVAR (Endovascular Aneurysm Repair)
- Carotid endarterectomy with patch closure for plaque removal
- Management of Carotid territory infarction and extracranial carotid aneurysms
- Comprehensive care for Peripheral Artery Diseases with bypass surgery and endovascular procedures
- Peripheral angioplasty and stenting for improved blood flow
- Treatment for vascular trauma and diabetic foot complications

Services and Procedures:

- Radiofrequency Ablation (RFA) and minimally invasive treatments for Varicose Veins
- Management of acute and chronic peripheral artery and vein issues, including limb salvage procedures
- Vascular reconstruction for trauma and iatrogenic injury
- AV Fistula (AVF) creation for hemodialysis access
- Advanced treatment for aortic aneurysms and complex vascular conditions
- Comprehensive endovascular interventions including catheter-based procedures
- Carotid angioplasty and stenting for arterial blockages

Specialists:

- **Dr. Nedounsejane Mandjiny:** A vascular surgeon in Trichy with expertise in various vascular conditions.
- **Dr. Anand C:** A vascular surgeon with DNB in Vascular Surgery, skilled in procedures like Carotid Angioplasty.
- **Dr. R. Punitha Kumar:** A senior consultant Cardiothoracic and Vascular Surgery (CTVS) specialist experienced in both traditional and minimally invasive cardiac procedures.
- **Dr. Arunagiri Viruthagiri:** Another vascular surgeon available at the Trichy facility, who has successfully treated patients with conditions like deep vein thrombosis.

Our Doctor's **Vascular Department**

Dr. Arunagiri Viruthagiri

MBBS, MS, DNB, Mch (Vascular surgery)
Consultant Vascular & Endovascular Surgeon
Kauvery Hospital, Trichy - Tennur

Dr. Nedounsejane Mandjiny

MBBS, MS (General Surgery), Mch (Vascular surgery)
Consultant Vascular Surgeon
Kauvery Hospital, Trichy - Tennur

MBBS, MS, M.ch, FIACS
Head of Department & Chief Cardiothoracic Vascular Surgeon
Kauvery Hospital, Trichy - Heartcity

Dr. R. Punitha Kumar

MBBS, MS (Gen. Sur), M.ch, CTVS
Senior Consultant Cardiothoracic Surgeon
Kauvery Hospital, Trichy - Heartcity

Department of **Nephrology**

Services and Procedures:

- Comprehensive kidney transplant program for adults and children, including living and deceased donor transplants
- Dedicated nursing and multidisciplinary teams providing expert pre- and post-transplant care
- Advanced Intensive Renal Care Unit (IRCU) with 24/7 support for critical end-stage renal disease patients
- State-of-the-art dialysis units offering hemodialysis and peritoneal dialysis with round-the-clock intensivist support
- Specialized pediatric nephrology services for congenital and chronic kidney conditions in newborns and children
- Cutting-edge, minimally invasive kidney stone treatments including percutaneous nephrolithotomy and Holmium LASER ureteroscopy

Procedures Offered:

- **Renal Transplantation:** Offers both living donor and deceased donor kidney transplants for adults and children, ensuring the best donor-recipient matching for successful outcomes.
- **Dialysis Services:** Includes Hemodialysis, Peritoneal Dialysis (CAPD), and Plasmapheresis with round-the-clock expert care.
- **Kidney Stone Treatment:** Provides advanced minimally invasive procedures such as Percutaneous Nephrolithotomy and Ureteroscopy with Holmium LASER for effective stone removal.
- **Dialysis Access Placement:** Expertise in CAPD catheterization and other vascular access methods to facilitate efficient dialysis treatment.
- **Management of Chronic and Acute Kidney Conditions:** Comprehensive care for chronic kidney disease, acute kidney injury, hypertension, and related renal complications in both adults and pediatric patients.

Our Doctor's **Nephrology**

Dr. T. Rajarajan

MBBS, MD, DM
HOD & Consultant Nephrologist
Kauvery Hospital, Trichy - Tennur

Dr. S. Kandasamy

MBBS, MD, DM
Senior Consultant Nephrologist
Kauvery Hospital, Trichy - Cantonment

Dr. Sakthi Selvakumar

MBBS, MD, DrNB
Consultant Nephrologist
Kauvery Hospital, Trichy - Cantonment

Department of **Radiology**

Facilities of Radiology Department

CT Scans:

AI-based 128 Slice GE Revolution Maxima CT scanner for advanced imaging and low-dose protocols like CT KUB for renal stones.

MRI Scans:

A Siemens MRI system for detailed imaging of organs and physiological processes.

Digital Mammography:

For screening and diagnosis of breast cancer, including detecting masses and microcalcifications.

X-ray:

Features a FUJI DR FDR SMART X-ray system and a 500 mA X-ray unit.

DEXA Scanner:

Used for bone mineral density testing.

Digital Mammogram:

Offers advanced breast imaging.

Procedures of Radiology Department

Cancer Screening:

Lung cancer screening.

Genitourinary Radiology:

CT KUB, Renal Angiogram, Intravenous Urography, Hysterosalpingography.

Thoracic Radiology:

CT evaluation of lung nodules, lung biopsy, pleural fluid aspiration.

Cardiovascular Imaging:

Including DSA (Digital Subtraction Angiography).

Interventional Radiology:

Minimally invasive techniques for diagnosis and treatment, such as pre-operative embolization of renal cell carcinoma.

Our Doctor's **Radiology**

Dr. V. Senthilvelmurugan,

MBBS, MDRD
Senior Consultant and HOD of Radiology

Kauvery Hospital , Trichy - Tennur

Dr. Saranya Manickavasagam,

M.B.B.S., D.M.R.D., F.R.C.R.
Radiologist
Kauvery Hospital , Trichy - Tennur

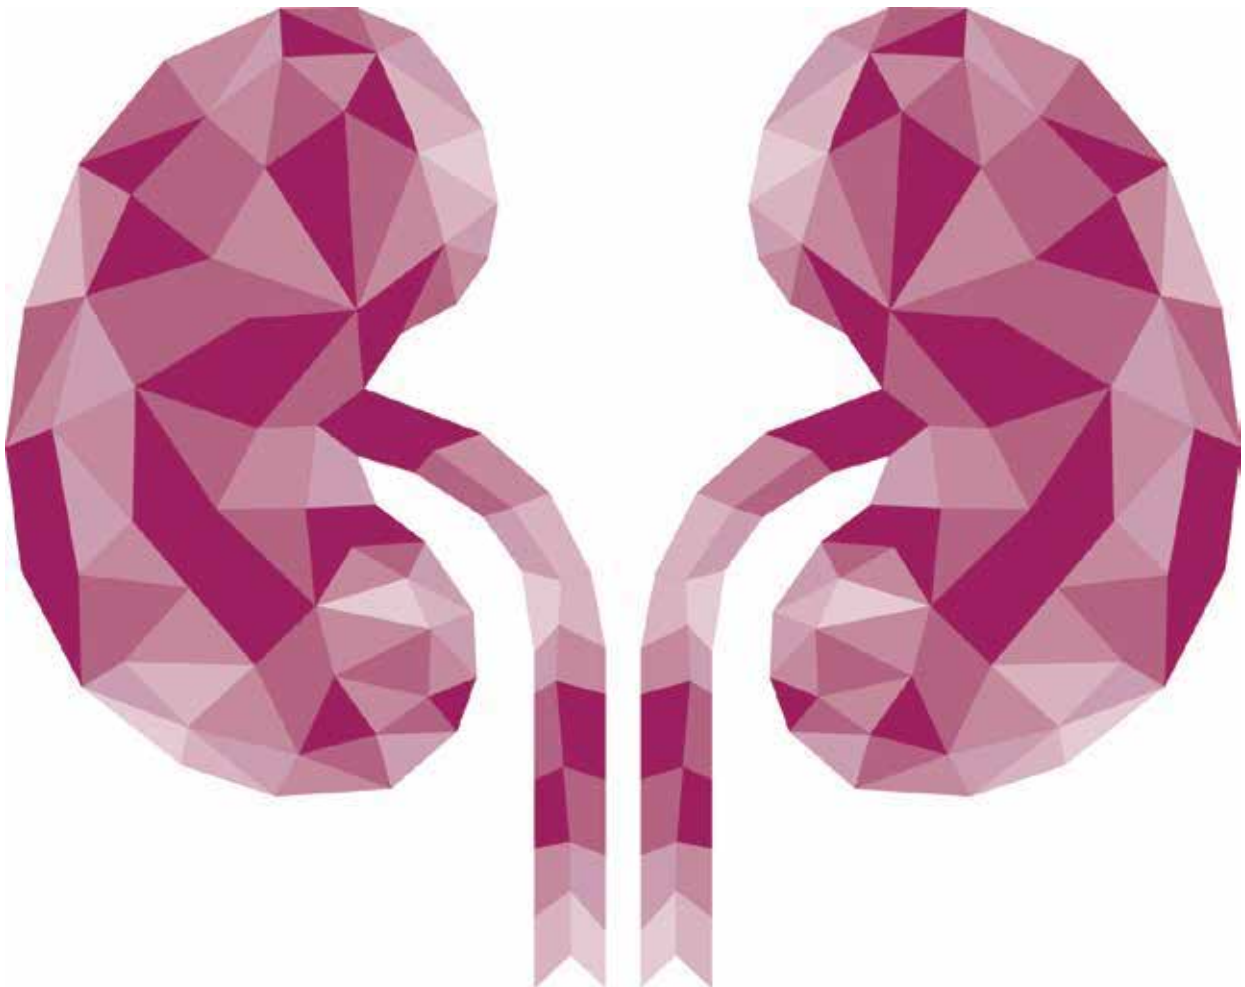

Dr.Sureendar,

MBBS, MD, DrNB
Radiologist
Kauvery Hospital , Trichy - Tennur

Dr. Navaneetha Kumar G,

DMRD, DNB, DrNB
Consultant Interventional Radiologist
Kauvery Hospital , Trichy - Tennur

Department of **Urology**

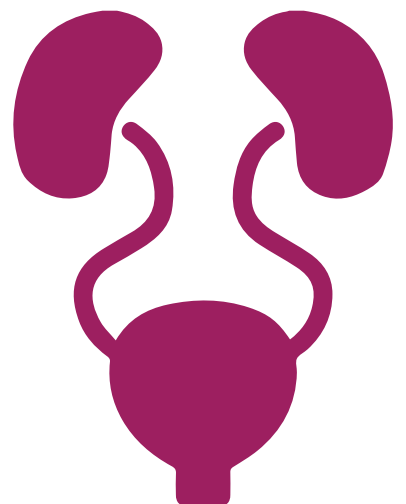

Facilities of Urology Department

- Full Time Urologist Coverage
- Thulium Laser Enucleation of the Prostate (THULEP)
- First time in Trichy & Delta Districts
- Holmium Laser for Urinary Stones
- Flexible & Rigid Ureteroscope
- PCNL (Percutaneous Nephrolithotripsy)
- ESWL (Extracorporeal Shock Wave Lithotripsy)
- Urodynamics & Uroflowmetry
- Rigiscan for Assessment of Erectile Function
- State of art Transplant Care

Procedures of Urology Department

- Innovative treatment procedures for ureteric/bladder stones, Cancer of the urinary tract, congenital urological problems, and male infertility.
- State-of-the-art extra-corporeal shock wave Lithotripsy machine (ESWL) for renal stone treatment
- Hypertension Management
- Various laparoscopic surgeries were conducted, including flexible Ureteroscopy and Laser Lithoclasty
- Management of chronic kidney diseases
- Dialysis
- Surgical treatment of kidney stones, prostate, renal cancers

Our Doctor's **Urology**

Dr. S. Senthilkumar,

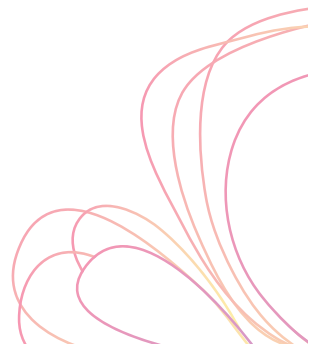

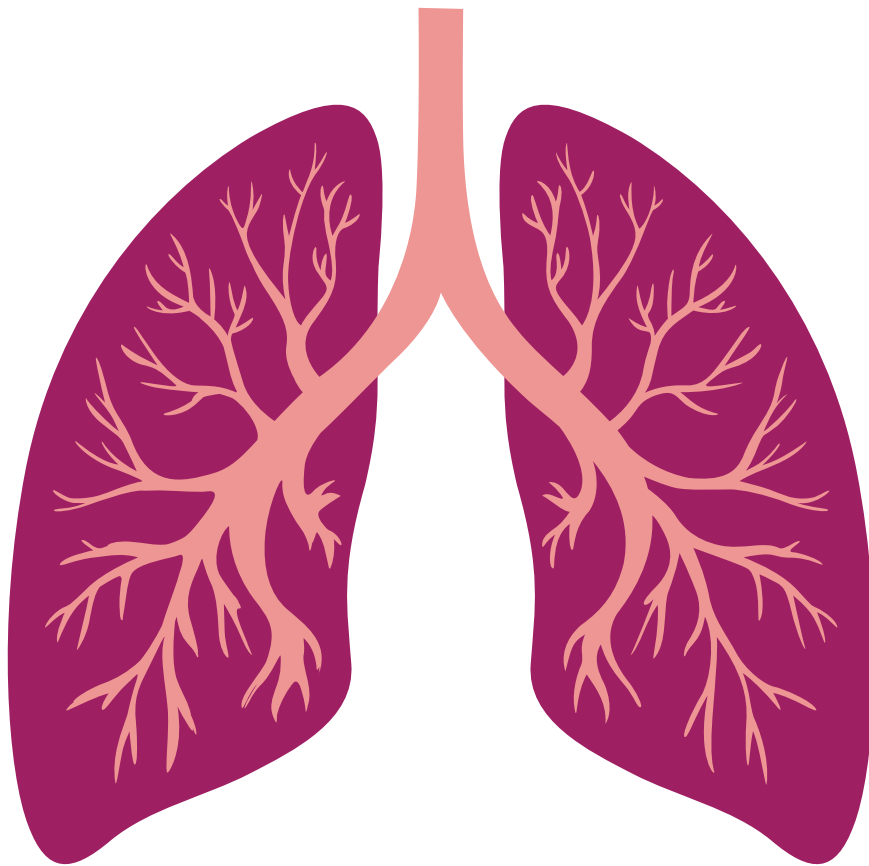

MBBS, MS, DNB
Consultant Urologist
Kauvery Hospital, Trichy - Tennur

Dr. S. Sasikumar,

MBBS, MS, Mch
Consultant Urologist
Kauvery Hospital, Trichy - Tennur

Department of **Pulmonology**

Facilities and Services of Pulmonology Department

Diagnostic:

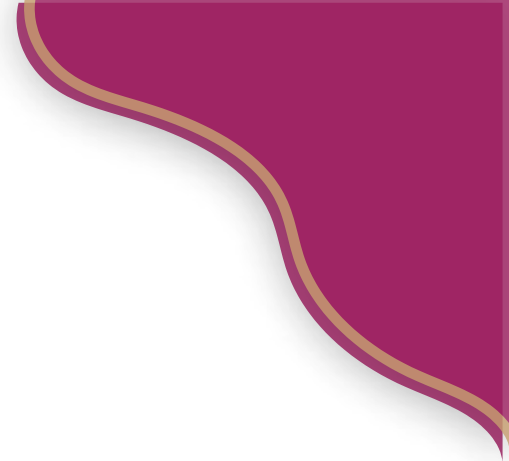

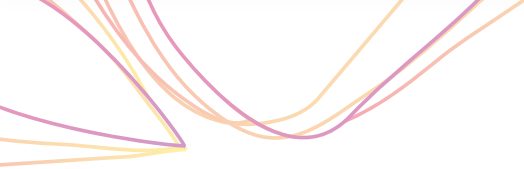

- Pulmonary Function Testing (PFT) lab for detailed lung function analysis.
- Sleep lab for diagnosing sleep-related breathing disorders.
- Asthma screening facility.
- CT scans and echocardiograms for evaluation.

Therapeutic:

- Thoracic surgical unit for lung surgery.
- Pulmonary Hypertension Clinic.
- Advanced treatments for conditions like asthma, COPD, tuberculosis, and lung cancer.

Procedures of Pulmonology Department

- Endoscopy: Video fibre optic endo bronchoscope for internal examination of the airways.
 - Bronchoscopy: Rigid and flexible bronchoscopy, including for infants and for foreign body removal.
 - Diagnostics: Spirometry, a common PFT, performed with quality-assured techniques.
 - Specialized: Right heart catheterization for pulmonary hypertension evaluation.
- 

Our Doctor's **Pulmonology**

Dr. Ramasubramaniam K,

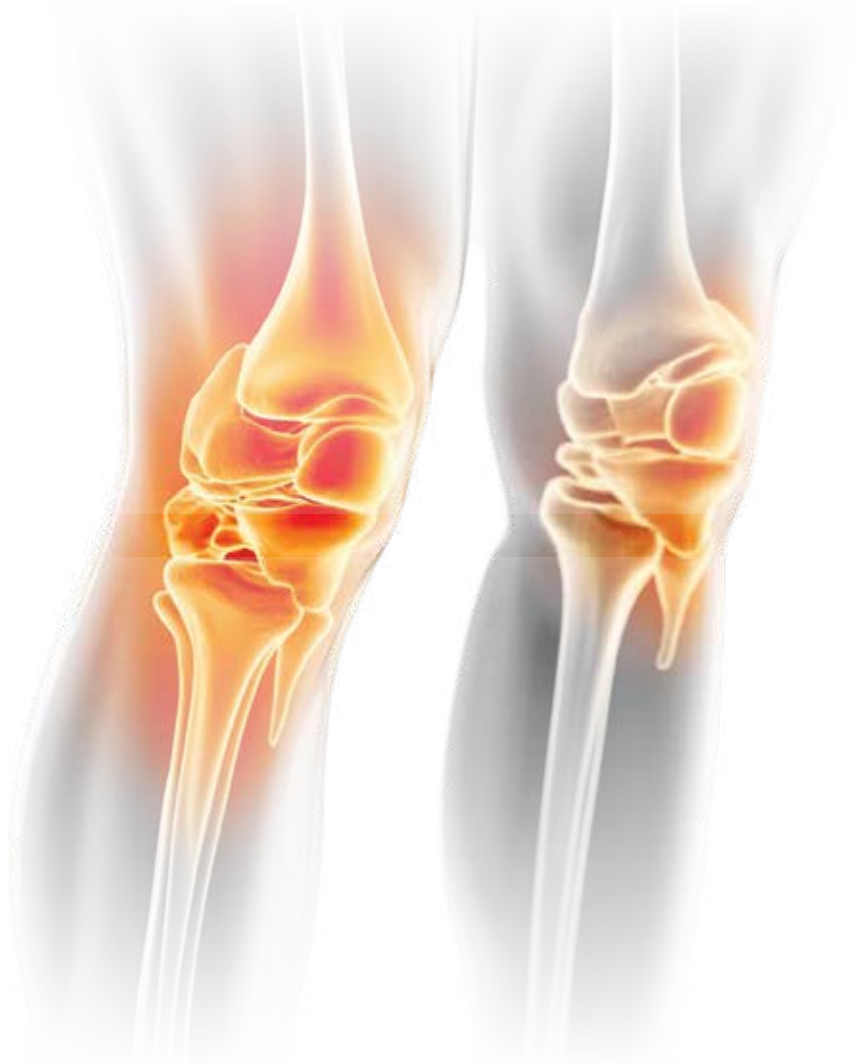

MBBS, MD, DM
Consultant Pulmonologist
Kauvery Hospital, Trichy - Tennur

Dr. A. Nagarajan,

MBBS, Dip. TB and Chest diseases (DTCD) DNB (Respiratory Diseases)
Senior Consultant - Pulmonologist
Kauvery Hospital, Trichy - Cantonment

Department of **Orthopedics**

Procedure of Orthopedics

- Total Joint Replacement
(Hip, Knee, Ankle, Elbow, Hand, Shoulder)
- Revision Joint Replacement for Failed Arthroplasties.
- Advanced Shoulder Scopes for rotator cuff Disease, Recurrent dislocation.
- Advanced Arthroscopic surgery to knee such as ACL/PCL, Meniscal Repair.
- Treatment for Complex Trauma & Major Trauma.
- Arthroscopic Surgery to Elbow, Wrist, Ankle, Knee and Shoulder
- Sports Injuries.
- Russian Ilizarov Techniques.
- Canadian Ponseti Method.
- French Nailing Techniques.
- Lengthening and shortening limbs.
- Treatment for Acetabulum Fracture.

Facilities of Orthopedics

- High Definition Arthroscopy System (HD)
- State of the Art Fracture Treatment Facilities
- Largest Physiotherapy Unit
- 24*7 Anaesthetic & Intensive Care Support for Adults & Children

Our Doctor's **Orthopedics**

Dr. P. R. Ramasamy,

MBBS, MS, FRCS
Head of Department & Senior Consultant Orthopaedician
Kauvery Hospital , Trichy - Cantonment
